TO: Mr. R. M. Monti
FROM: A. J. Calabrese
DATE: August 8, 1967
SUBJECT: COLUMN AND SPANDREL FIREPROOFING OBSERVED AT ALCOA PLANT

REFERENCE:

COPY TO:

I went to Alcoa-Cupples plant in St. Louis on August 3, 1967 on an inspection of column and spandrel fireproofing of mock-up.

Mario and D'Bono - plasterer - contractor representative was a Mr. Louis D'Bono and Cafco representative was a Mr. A. Bessemer.

The above mentioned and I were present when columns and spandrels were sprayed with Cafco Blaze Shield Fireproofing Type "D" on August 3 and 4, 1967.

It is my opinion that the method of applying was done in a workmanship like manner. It is also my opinion that the method of applying was done with ease and very little spillage.

A. J. Calabrese
